Re: Potential NCDEQ CDBG-Infrastructure Grant Application
for the Town of Taylortown – Sewer Line Extension

The Town of Taylortown will be submitting an application for the North Carolina Department of Environmental Quality – Community Development Block Grant Infrastructure (NCDEQ CDBG-I) program to fund the extension of the sanitary sewer system. The NCDEQ CDBG-I program targets the replacement / rehabilitation of aging water and wastewater infrastructure and the extension of water and wastewater infrastructure in areas that house predominantly low-to-moderate income (LMI) persons. Applications for this program are submitted once a year (November) and are rated on a points system. Grant money for these projects are awarded to the applicants with the highest points scored and available funds. The largest factor in determining points for an applicant is based on the number of LMI households in a project area, which is determined by income surveys. This is a 100% grant program that will not have any loan associated with the cost of the project if awarded.

The Town of Taylortown will be applying in November for funding from the NCDEQ CDBG-I program for the extension of approximately 10,000 linear feet of gravity sewer to serve new customers along Main Street, Walker Street, Juniper Lake Road, and Richmond Street (see map). In order to increase the likelihood of this project being funded, the Town of Taylortown will ask the citizens in this area to be served to complete an income survey as required by NCDEQ CDBG-I. This income survey must be filled out by all residents in the area that wish to be tied into the public sewer system extension upon completion of the project. These income surveys will be kept private and only shared with NCDEQ upon completion. The Town is asking for assistance from the citizens of Taylortown in completing these surveys in order to increase the chances with funding this proposed project. If funded this is a great opportunity for the Town to serve its residents with public sewer with a 100% grant for the project and no cost to the residents to tie into the sewer system extension.

The Town will hold a Town Council meeting at 6:00 pm on Tuesday June 30th, 2020 to address any questions or concerns the citizens of Taylortown may have regarding this application for grant funding of the proposed project. It is highly encouraged that the citizens of the Town attend this meeting to learn more about this project and ask questions or express any concerns regarding this application for funding.
